## About me:

I believe that I will get a lot of opportunities in this field and be successful. I enjoy everything that I do. I am always ready to face challenges and get along with people well. I learn from my mistakes and am ready to take on any challenge required to perform my job. I have experience working alone as part of a team, so I feel comfortable in both situations. Also, I have experience working under pressure.

I work very hard. I'm a good team worker, and I'm great with customers and always look to improve and grow within the role. My strengths include the fact that I am good at communication. I can build strong relationships with my work colleagues, customers, and clients.

## Soft skill:

- English: pre-intermediate / intermediate
- Resistance to stress / responsibility / teamwork
